

Apex
CONSORTIUM INDIA Pvt. LTD.

Safety Matches

Apex is based at Sivakasi, Tamilnadu, South India, a town famed for its thriving Match Box, Fire crackers, and Stationary items. Apex is a truly unique venture, which has seen the coming together of six successful companies, for delivering increased volumes, while adhering to the highest standards of quality. Apex is already a name to reckon with when it comes to quality products.

We, as a Company have a keen focus on quality and have a responsive management team which strives for customer satisfaction at every level of the business cycle

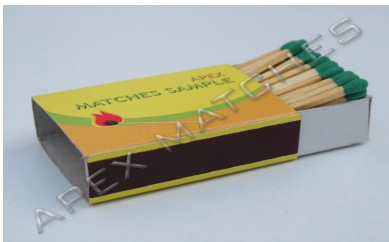

Safety Matches:

We are into 4 different types of safety matches.

- 1) Card Board Safety Matches
- 2) Wax Safety Matches
- 3) House-Hold Safety Matches
- 4) Veneer Safety Matches

Cardboard Safety Matches:

Cardboard Safety Matches is made of quality duplex board of both inner and outer. Splints are made of perfectly chopped Malabarica splints. Aspen and Imported splints are optional.

Wax Safety Matches:

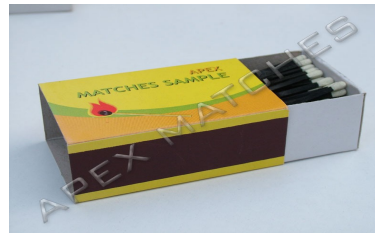

Wax Safety Matches is made of quality duplex board of both inner and outer. Splints are made of perfectly chopped tissue paper and wax splints. Wax Safety

Matches have a advantage of burning in damp condition and a perfect flame transfer to splints. Wax Safety Matches very handy for use.

House-Hold Safety Matches

House hold Safety Matches are big in size and handy for lighting stoves, candles. They are packed in 2 pieces for easy retailing. House hold Safety Match Box is big for making it safety while striking.

Veneers Safety Matches:

Veneer Safety Matches are matches for wet fields. Outer made of veneers which is sturdy and moisture proof which stays without collapsing. Veneer Safety Matches are suitable for farmers and fishing people who's working conditions are mostly wet
